POLTECHs signs have an internal clock. To set the time, do the following:

The sign need to be in display mode. To be sure, keep [CONTROL] down and press [START].

Keep [CONTROL] down and press [TIME/(J)]. The sign should now show the time.

- i) If the time is right, and no adjustment is needed, keep [CONTROL] down and press [START] to get back to display mode.
- ii) If the time need to be adjusted, keep [CONTROL] down and press [TIME/(J)] once more. The sign is now in time setting mode.

Type the correct time with 6 characters (e.g. 123300). When the 6th character is typed, the clock will start again. Keep [CONTROL] down and press [START] to get back to display mode.
